

BLUBEACH

BEACH CHAIR

BLUBEACH is an amphibious chair designed for people with temporary or permanent mobility impairments that allows them to advance on the sand and float on the water. It has a load capacity of 130 kg and is made of reinforced aluminium for greater strength and durability. The three low-pressure wheels offer great stability and facilitate movement on all types of terrain, sand or pebbles, allowing any accompanied passenger to go to the beach and swim without any problems. The one-piece float, which is fully tiltable, makes it easy to accommodate the passenger. After use, there is no need to clean, just a simple jet of water.

TECHNICAL FEATURES

- Total length with folded rudder: 220 cm
- Total width: 107 cm
- Seat width: 50 cm
- Seat height: 45 cm
- Backrest height: 90 cm
- Weight: 31 kg
- Maximum weight of the user: 130 kg
- Minimum weight of the user: 25 kg
- Wheels of the same diameter: 3
- Wheel weight: 3 kg
- Wheel pressure: 300 g (0,20 PSI)
